The Best Cavaletti Exercises for THE TROT

**BOWTIE FAN**

In one corner of your arena between M and C, arrange four poles in a fan shape with the spacing between the middle of each pole measuring 4 feet. Set up the same arrangement in the corner between A and E. Beginning at B, trot to the corner at M and C, ride a half circle that crosses over your fan of poles, and then return to the track at B in the opposite direction. Now proceed ahead to the corner between F and H. Repeat. Your figure should look like a bow tie.

**POLES WITH A BLANK SPACE**

Place five poles parallel to each other spaced 4 to 4.5 feet apart (depending on your horse's height and stride length) followed by a blank space of 12 feet and then another pole. Ride a steady trotting trot in a straight line over the poles, being mindful to maintain the same rhythm in the blank space without poles. Repeat 10 to 15 times.

**POLES RAISED 1'**

Place two 8-foot poles in an L shape and raised one foot off the ground. Now trot a small figure of eight using the poles.

**Liability Release:** I understand that this is a high risk sport and am participating at my own risk. I hereby assume this risk and hold harmless the Organizer, Organizing Committee, Buckeye Equestrian Assoc. & Hackamore Farm LLC from all liability for negligence resulting in accidents, damage, injury or illness to myself and to my property, including the horse or horses which I participate.
